A BIT OF OLD HOLLAND

Jac Lefeber, whose prize-winning daffodils and tulips are recognized for their rare and unique beauty the world over, is here to serve you and your garden needs. Only here can you find the orchid-type daffodils you may have seen on T.V., or the beautiful "Erret Deck", "Marlitha Deck", "Ann Graham", "Emmy Hale", "Mrs. Lillian Bishop", the lovely, all white "This is a Lady", etc., which have caused such a sensation in the "Daffodil Set", for they, as well as "Hillbilly" and "Hillbilly's Sister" were created by the consummate skill and artistry of Jac Lefeber himself. Where else would you find the pure white upswept daffodil, shaped like a tiny, glistening dewdrop, to grace your rockery? Or the orange centered narcissus in flawless miniature? There is no variety of daffodil, tulip or hyacinth you can think of which Jac Lefeber does not have, or can not get for you from one of his seven famous brothers in Holland.

Jac Lefeber's flower shows held every Spring, from April 1st until the growing season is over, is a thing of beauty and a joy forever, that no flower lover should miss. This is the time to capture on color film the breathtaking panorama of the fields in bloom, with the Lefebers there in Dutch costume to give your picture that quaint, authentic touch of Old World charm; and to choose your bulbs for Fall delivery from the fascinating arrangements of the many varieties on display. One daffodil alone, Jac's newest and finest, to which he has given his mother's name, "Jacoba Van Ruiten", would be worth the trip to see.

(n.b.) — I, who first came to Jac as a chance customer, and remained to sing his praise to all who would listen, volunteered to write the above. It can therefore be truthfully construed to be an unbiased, word of mouth recommendation from a strong convert to the world-famous Lefeber bulbs. Now turn to the back page and read what one of his many not only satisfied, but delighted customers has to say.

THE AUTHOR

It is only necessary to enclose 1/2 of the total amount with your order. We will pay postage and add it onto your bill to save C.O.D. charges. Washington customers, don't forget the Washington 3 1/3% tax!

(Note: Because there is another Western Star, we put Lefebver
behind the name to identify our bulb.)

WALTER BREEDVELD—Pure white, extra nice cup, broad deep red
edge 1.75

Leave your Daffodils in more than one year. They will give you more
flowers. But the third year it is better to move them, and if possible
give them the place where you had your Tulips. Rotate your flower
bulbs. Bulbs will be more content. Don't plant your tulips on the SAME
place, this is dynamite.

HYACINTHS

To have excellent and real large flowers in your garden, we can de-
liver to you a very good SNOW WHITE, SKY BLUE, PINK, DELFT BLUE,
RED, DARK BLUE, OR YELLOW. You tell us the colors and we will send
them.

Largest—2.00 per dozen Little Smaller—1.50 per dozen

SPECIAL MIXTURE OF NEW VARIETIES	per dozen .50

We have many, many other varieties we cannot list of every type of bulb.

Dear Friends:

We do not put out a catalog that is fancy and full of colored pictures, but prefer to put the quality into the bulbs which is our business. We are proud of the outstanding hybrids obtained through unceasing efforts to create new beauty for you.

Sincerely,
JAC LEFEBER

Bremerton, Wash.
April 2, 1957

JAC LEFEBER AND SON
Importer
Dutch Bulbgrower and Hybridizer
Dear Jac:

It is time to be thinking of bulbs for fall plantings while we can see the loveliness of those blooming, so SPRINGTIME FRESH in our gardens.

To think of bulbs, is to think of you and your good wife and family who have given so much to us gardeners, not only your choice bulbs but the knowledge of growing them so successfully.

We are indeed fortunate and grateful to have a truly great hybridizer and grower from Holland in our midst.

Congratulations on your new location in the beautiful Bellevue area. Your community will certainly be enriched by your fields of the finest daffodils, tulips, hyacinths and iris in the world and by your own worthwhile contributions to the growing public.

Our own community awaits our Garden Club's Spring flower show and your breathtaking display of daffodils and tulips.

We are going out for another national award this year. The thousands of flower lovers attending our show will again thrill at seeing your now famous display among our Carnival of Flowers.

We wish to thank you for accepting our invitation, and our public will again appreciate being able to order from you in person, from your display.

Our members especially liked the following daffodils for winter forcing, Flower Record, Big Jac, Bernardine, Fortune, Orange Blossom, La Riente and Thalia.

Your so large flowering parrot tulips were out of this world and your tulip De Meter was excellent, so were your lily flowering tulips, they withstood the most rigorous winter. The hyacinths are out now and stand sturdy, bright and tall. All of your bulbs are so strong and healthy and, I might add, reasonable.

Will see you at the show time. Bring plenty of copies of listings for our public.

Very truly,
MRS. JAMES A. THOMPSON
1710 14th Street
Bremerton, Wash.
Horticulture Chr.

We wish to take this opportunity of thanking Mrs. Thompson for allowing us to print her letter, and all our new friends for their generous and enthusiastic patronage. Getting started in a new location is always a slow process, but thanks to your friendliness and loyalty, we feel that it won't be long before you will be able to find ALL your garden needs in one convenient location—your own neighborhood "one-stop garden store."

Please bear with us until we can accomplish this, for only your continued patronage and that of your friends can make it possible. And we solemnly pledge that we will handle only the healthiest plants at the most reasonable prices possible.

Greetings to our old friends in Seattle. We are delighted to be in a more convenient location for you. Do drop

in on us often and bring your neighbors. And to our friends down Olympia and Nisqually way, we hope you will not forsake us. If you don't have the time to visit us here, we will mail your bulbs to you. But please order early to insure prompt delivery of the choicest bulbs.

Most of our bulbs have been grown 7 years in Washington soil and are hardy and inured to this climate. When bulbs are received, do not keep them in closed sacks. They must have air to breathe, even as you and I.

Sincerely,
JAC LEFEBER

P.S. — We also want to announce with pride that we Lefebers are now American citizens!

Directions From Floating Bridge:

Follow U.S. 10 to Eastgate Overpass. Follow Lake Hills signs to S.E. 16th. Turn right at Lefebor sign — one mile to the bulb farm.
